Letter from Rome, Ind. Lientenant Governor Willard and Judye Morto meet in debate-Willard annihilates Morton. ROME, PERRY COUNTY, IND ...

August 21, 1356. )
Mesers. Entrons: On Saturday last, the candldates for the office of Governor-Hon. A. P. Willard, Democrat, and Judge O. P. Morton, Independent-addressed the citizens of this place. DOOKKEEPING BY DOUBLE ENThere was in attendance a large number of Kenlars. rs, Commercial Calculations, and Fennmanahlp tuckians, who came over to see if Democracy was the same in indiana as in their native State. Among them were a great many Fillmore men Mr. Morton arose, and railed at the Nebraska in-iquity, declared himself in favor of Fremont and lown on the extension of slavery, danied the charge of Abelitionism, and made a ridioulous at-tempt to prove his consistency as a Democrat. He labored hard, but created no excitement with his friends, and netblag out contempt in his oppo-

But when Willard, the great champion of Democrasy, commenced speaking, the wildest enthu-sized provailed, and had he not restrained the tumultuous bursts of appliance, he never would have been able to anish his speech. He proved that blerton, for months after the passage of that that Merton, for months after the passage of that "awful iniquity," was in favor of it, and didn't find out until recently that it was such a "drewlful

Democratic consistency.
Finally, Willard accused the Fillmore party leaders of being in favor of Frement, and proved it to the satisfaction of every one present, by stat-

ing the well-known fact that there has not been sent a single Fillmore decament to this place since Fremont received the Black Republican nomination, but the post office is crowded with Abelition speeches and incondury appeals to the prejudices of the Northern people.

For blank-books, binding, stationery, labor, and miscellaneous items, and for statutes and reports, two thousand two hundred dollars:

In the office of the Committee is the Committee is the committee in the office of the Committee is the committee in the office of the Committee is the committee in the office of the Committee is the committee in the committee in the committee is the committee in the committee in the committee is the committee in the committee is the committee in the committee in the committee is the committee in the committee in the committee is the committee in the committee in the committee is the committee in the committee in the committee is the committee in of the Northern people.

I can't help thinking that Prentice (the mot man) is playing the same game in our State that

the American leaders are playing in Indiana, viz.: aiding and assisting his underground railroad party; but when Willard accused them of it, and told them their flag had but sixteen stars, one for each State, none for Virginia, which contained the grave of Washington, many a Fromont lace paled as though they had been Impeached with

high treason.

Every Fillmore man present who was in favor of the people of the Territories legislating on the subject of slarery, declared himself in favor of the gallant Wiliard, and some declared they would support Mr. Buchanan for the Presidency, as Mr. more has no earthly chance for a single State

Don't let the people think that the Abelitionists will carry Indiana, for Willard has canvassed the State, and he is invincible. You may calenlate on 10,000 majority for him, and by November

country. We are teld here, if the South dare vote ? Buchanan, there will be a movement North for Fromont. This game the Fillmore men of the free States intend to play, and it seems to be understood here. The federal government is to be Abolisionized by the operation, in any event. The process is plain. The Fillmore men and the Frement men are new supporting the same Congressmen, in opposition to the Democratic party; and these candidates for office are Freesoilers and Abelitiosists. The same mea that vote for Fillmon are supporting the Abelition or Frement candidates for the legislatures of their respective States; and the result will be, if they succeed, the election of Abolition Sonators; and we shall then have an Abelition Senate as well as an Abeliti s Louse. The federal government will be completely Abelitionized. It is no matter then who is President. He will be without power to protect State or judividual rights. His veto would be idle; for they would withhold approristins, and the wheels of government would

stop, unless he acceded to their wishes. Now, we say there is a complete union between the Froment and Fillmore teen in the free States for this purpose; and we have the threat that they will do still more if possible. They will vote for Fremen', unless the South will vote for Fillmore. Well, lot them do it. They can't do worse They will have an Abolition Congress and Sonate in either event, if they succeed with

The Know Nothings have impudently protended that their organization was composed of the pure portion of the lwo old corrupt perties, the Whig and Democratic. The following extract from the Fort Smith (Arkansas) Herald, shows how this pure party respects law and justice, and will be present. Ample arrangements will be present.

The Kuew-Nothings have carried their entire theket in this county by a small majority. As way redicted, in speaking of the appoint man of the judges of the election, the know-Nothings were determined to carry the county at all hazards. Out of thirty old judges appointed in the county, but f. ur or five were bene-

The feme Startling Annotherment Again.

The edgan, togeraloss of the peace and quies of the country, repeats the story of the meditated withdrawal of Bushanan. It comes now upon the authority of a Mississippi lawyer. Philadelphia lawyers, in former times, were a very smart class of individuals; but this Mississippi lawyer has got ahead of his whole tribe of Philadelphia. He has written from New York "that Fillmere stock is unquestionably rising, and the withdrawal of Mr. Buchanan is seriously mooted here among the few ienders left of the Democracy."

A Mississippi lawyer is a sharp fellow at home, and when he gets to New York his intellects are whetted until he can see ghosts, as plain as brickbats; hence this aunonneement. Then we have another revelation from a source

prolific of wonders; the New York Herald. The editor says, if Fremont, when applied to by a Democratio committee, had consented to awallow the Kensas-Nebraska bill, he would have put the nose of Buchanan out of joint as the Democratic nominee. That's a poser, isn't it? What a narrow escape Buchanan did make!! Who would have For the State at large—HON. ELIJAH HISE, thought it?—Did EVER! Upon what slight Incidents hang great events. If Fremont had only said yes, instead of no, to that Democratic committee, " a Democratic committee," he would now be on a successful way to the Presidency; and Buchanan, instead of having the prospect of the Presidency, would have remained lu private life the remnaut of his days. A marvelons man, this same Fremont. The whole country had their eyes upon him for the Presidency, so remerkable

It is not surprising, however, that such worders, so unlooked for by common peeple, should be rewealed. Men who have eeen Sem, and New York, ersally regarded as the established medium of and an editor who has seen so many things, like ness communication between the buyer and Bennet, can make revelations. The latter told elier: its largely increasing circulation, both at ue, some days ago, of a movement for Fremont in home and abroad, offers a favorable opportunity the Southern States; and the Journal quotes him for a julicieus dissemination of mercantile intel- exuiting over the Democracy going over to Fregence. It is also a favorite family journal, hence mont in masses, especially in Ohio. The Knowra all dealers, or well as more extensive trades- Nothings of that State have gone to Fremont some people, mechanics and citizens will find its col- time since. There are none but Democrats and a few Old-Line Whigs left to Buchanan, whilst Fillit stands at the head of one of the great parties more and his small squad look on in the contest

Mesers. Eurrous: Having been a reader of your paper for some time, and seeing notices of the prospects of the noble Democracy throughout the entire State of Kentneky, we begin to feel curselves stighted in this vicinity on account of not being known to our brother Democrats as being at the wheel and moving on in the good work with them. Democreey is gaining ground every day in this section. There are many warm hearts enlisted in the good cause here. In the canvass of Morebead and Ciarke the Democrate were almost afraid to speak of Democracy or defend their priuoiples en account of the midnight worthippers of the notorious Sam, but now there is a chenge in bings; all this has passed away, and the followers of Sam quait beneath the gaze of a true Democrat. There are now few Know-Nothings in this vicinity, and what few there are read the Journal and no other paper, which is known to every callghtened civizen to be a bundle of political lies, which is spewed abroad to mislead the unsurposting by its Abolitionist of an editor. The people of this section are getting their eyes open by the treacheroue doings of their dark party, and will, in Nevem ber, roll up a better Democratic vote than ever was given in this county.

CONGRESSIONAL. WASHINGTON, Apg. 27.

SENATE, -The Senate proceeded to consider the bill introduced yesterday by Mr. Weller to repeal cartain laws of the Legislation of Kansas. Mr. Hunter stated that the Senate had already twice passed bills containing the same provision as this, and sent them to the House, and they were there defeated because they contained other mat-ters to which the House objected.

Townships seven, eight, place, and ten, of range hand, le willing to repeal certain laws, which they almeteen.

Mr. Hun'er said while the Bouston hand, le willing to repeal certain laws, which they believe contrary to the Constitution of the United Townships eight, nine, and ten, of range sent to act thus partially, unless they could at the twenty-one.

Mr. Weller asked him to withdraw that motion, allow him to make a faw remarks, and Mr. Hanter acquiesced.

Weller stated that ha had introduced his bill without concultation with any of his political associates, and regretted very much that ha was sustained by them in his desire to adopt a concil-iatory course towards the House. While he antertained great regard for their opinions, ha was compelled to differ from thom in relation to this He was actnated by the desira to wipe out of the stainte books of one of the Territories, laws, which, in his judgment, were clearly un-constitutional, and at the same time, as Chairman of the Committee on Military Affairs, he was anx-Kanses, Aug. 22, states that the mail carrier is in ions to do all in his power to fee litate the passage of the army appropriation bill. on the table. Agreed to 25 against 11.

The Senate proceeded to consider the army bill.

Mr. Hunter stated that this bill was the one upon which the two houses disagreed at the adjournment of the last session. There had been thice confesences upon it, which were namecesful; harn for State Senator, and Hon. S. Jones, Aubut although the last vote of the Honse was to adhere to their disagreement to the Senate amend- T. B. Patterson, for the Legislature. The county mendment, he was willing to give the House as was fully represented. Great manualty prevailed, many chances to vote on the question as they could have, and he therefore moved the Sonate Black for Govarnor, and approving the Cincinnati insist and ask a committee of conference. He sominations and platform. had no doubt of his parliamentary right to make this motion. He desired to take away all ground for the objection that the Senate had not shown a proper degree of contesty towards the Honse. This would give the House two more apportunities to A mass meeting was organised at the worten point the question, and be unable to agree. When that fact should be reported to the illoues there would still be another chance to take a vote upon reseding. Thus they would have ample opprunity to reconsider what he could not help regarding as an unwise and hasty determination on Reynolds, was fought yested. garding as an unwise and hasty determination on their part, to persist in the proposition on which the river thirty miles south of the city, and resulted in Brown's being wounded in the knee at

Mr. Cass replied those were the latest chicial returns which had been received at the War Dapartment, and showed what had been the conduct of the military th re. As to the subsequent telegraphic dispatches, there might be some foundation for them, although it was very probable that the actual condition of things was exaggerated.

Mr. Bell said he had twice before been led to suppose that all the difficulties were terminated, from information derived from the Executive departments, and from officers in command in Kansas, that there were ample forces there to suppress all disorder. On both occasions it turned out that be had been decrived, and did not wish to be deceived again. If difficulties still exist there, as he was afraid was the case, he hoped measures he was afraid was the care, he hoped measures would be taken to restore tranquility, and he hailed with pleasure the movements of the Senator from Yr., for another committee of conference on this bill.

Mr. Clayton was glad to bear the motion of tha Sensior from Virginia, but thought it would have been much better to start right and pursue

street I lost all my stock, together with my books, conference having been appointed, the Senate ad-tices indebted to me to come forward and settle by House. - Mr. Campboll, of Ohio, after saying Drag tat it was evident no basiness would be trans-

acted to-day, moved an adjointnment, which was disagreed to.
Mr. Smith, of Va., moved a call of the House, which was disagreed to -86 against \$4.

Mr. Chaffee asked leave introduce a resolution that the Senate, concurring so much of the army ill as is contained between the enacting clange and the 137th line, be stricken out, and the residue theraof be declared passed, for the specified purpose herein contained, and for no other pur-pose whatever. The items merely provide for the expenses of tha war dapartment, arsenels, armo-

ries, surveys, and armamant fortifications, with-out reference to army operations. Mr. Phelps objected Mr. Giddings-And I object. Others did likewise.

Mr. Wakeman's resolution proposing to make a roper deduction from the pay of members, who, y reason of pairing off, shall decline to act or vote n the House, was laid on the table.

In the House, was laid on the table.

Mr. Williams offered a resulction providing for the adjournment of Congress, the Senate concurring on Thuriday afternoon, at 3, r. m. Adopted: 110 against 53.

Mr. Wheeler offered a resolution instructing the Committee on Ways and Means to report a bill which he proposed, being essentially the same as that heretofore acted on for the support of the army, the committee to have leave to report at army, the committee to have leave to report at

no other additional instructions.

Mr. Orrobjected. Mr. Stanton raised the point that it was not in order to introduce a second bill substantially the same as that acted on by the Honen at the present session, the one being a bar to the other. This was not only the second, but the third bill, the appropriations being only \$1,000 less than in the formar bills, which did not change the principle.

The course now attempted was unheard of in par-liamentary practice.

The Speaker said only one this had been introduced during the present sassion, the other iying over from the last. The previse in the present having been emitted, made it different in sub-

stance, in the opinion of the Chair; therefore, the resolution was in order.

Mr. Campbell again appealed to Mr. Wheeler o have his (Campbell's) additional instructions of the committee read.

Mr. Wheeler objected.

At this point the morning hour expired. A massage was reserved from the Senate Juriber insisting on its disagreement to the amendment of the House to the Senate's amendment striking out the Kaneas previse to the army bill, and asking a Complete of Complete of the Comple Committee of Conference.

On motion of Mr. Campbell that the House further insist, a Cemmittee of Conference was appointed, consisting of Messre. Campbell, Stephens,
